S EAW se nikdy nenudíte. S novým heslem „neverending innovation“ na tech se vrhli na spoustu svých osvědčených modelů a vylepšili je, přidali jejich další klony (například instalační verze line array a virtual array systémů), rozšířili nabídku modelů v loňské novince, řadě velkoformátových koaxiálních systémů AX a samozřejmě také prolomili hranice dosud možného, uvedením nové série aktivních reprosoustav NT, vyzbrojených nejen neuvěřitelným poměrem váha/výkon, ale hlavně revolučním řešením DSP, který konečně umí odstranit některé vrozené nedostatky měničů používaných v PA a dostat tak zvuk koncertního aparátu na studiovou kvalitativní úroveň.
